Tiphaine SURYGALA

WEB DEVELOPER

EXPERIENCE

Web developer
*March 2023 - March 2025, **Genie Shopping***

- Development of a REST API and its integration to multiple applications to monitor system performance and third party programs, decreasing the chances of profit loss.
- Integration of a CRM with the use of its own framework to consume our API
- I worked alongside Google : as they were developing their new CSS API, I was also developing the system that would consume this still at early access API.
- Optimisation, debug, monitoring

Junior Web developer
*January 2021 - March 2023, **Genie Shopping***

- Developed custom and reusable web components for multiple applications
- Collaborated with UX designer to create visually appealing design and dynamic web content on multiple web application with the use of CSS, Javascript but also Symfony UX or React, to improve user experience and enhance company branding.
- Development of server less website for a better scalability and cost effective solution
- NoSQL database design and conception
- Debugged and tested applications to identify and fix bugs.
